The Rock is born, the Warrior blossoms and a new era of cinema opens its. DOS version is a 32 bit version of the game. While it's . An Indian thriller directed by Chandrakant Berde. (2014) . This video is unavailable. Please. Close Your video does not support HTML5. [Manikarnika](#).Q: Hide the labels of duplicate values in an Array I have this array [ {id:1,label: 'a',value: 'AAA'}, {id:2,label: 'b',value: 'BBB'}, {id:3,label: 'b',value: 'CCC'}, {id:4,label: 'a',value: 'AAA'}, {id:5,label: 'a',value: 'AAA'}, {id:6,label: 'a',value: 'BBB'} ] I want to hide the duplicate labels, only keep once with the first unique value. I tried with this filter. But it didn't work. I'm thinking about some forEach data.forEach((el, index) => { if (index === 0) { data.splice(index,1); } }) A: You can use this and save the index of data that you should remove var data = [ {id:1,label: 'a',value: 'AAA'}, {id:2,label: 'b',value: 'BBB'}, {id:3,label: 'b',value: 'CCC'}, {id:4,label: 'a',value: 'AAA'}, {id:5,label: 'a',value: 'AAA'}, {id:6,label: 'a',value: 'BBB'} ]
