Update Orcad v16. 5. Plot summary Theo and Ben have been working together in their remote cabin on New Year's Day when they are contacted by Chuck, a man who claims he has information about the deaths of a man and a woman on Theo's property. Theo drives to the cabin, hoping to find Ben, but he is nowhere to be found. A group of gun-toting men arrive at the cabin to deliver an ultimatum: Theo and Ben must surrender or be killed. They find Theo, who is wounded and in a weakened state, bleeding to death in a storage room. Ben finds the dead bodies of Kate and Bruce on the floor of the cabin. Before he can join Theo, however, Ben is ambushed and severely wounded. Ben is placed in an ICU at a local hospital, where he is injected with several narcotic medications and oxygen. He sees Theo briefly, before losing consciousness and slipping into a coma. When Ben wakes up, he remembers little about the night of the killings, except that he was drugged and struck on the head. Theo comes to visit him repeatedly, but Ben is unable to speak to him. One night, Theo contacts "Chuck" to deliver a message, but Chuck turns out to be instead a nurse who has been in the hospital to look after Ben. She gives Theo an old photograph that Ben had found in a pouch in the storage room where the bodies were found. The woman is Kate. Tanya and Max arrive at the hospital and ask to see Ben. They give him the photograph and tell him that they believe that he can still help them. Ben agrees, but asks them to leave. Later, Theo and Theo's neighbor, Joe, 4bc0debe42
