If Evernote apps can be written once and can be used across an entire device/platform, then developers can focus more on the UX and experience of their apps than the usual "here's the code, you're stuck with this legacy platform." A: Substitute $e^x=t$, then $dx=\ln(t)dt$, and then $dt=\frac{t^2}{t-1}dt$. The integral then is $\int \ln(t) \frac{t^2}{t-1} dt$.

The court said this was due to lack of evidence to confirm the identity of the two convicts accused of killing Suvra Bhide the wife of Congress Leader Mohammad Sharif Wadali. Criticising the trial in an appeals court that convicted the two men in the case, the Chief Justice, Justice R M Lodha, said a "lynching" had occurred during the trial. "It appears that a narrow minded, arrogantly bigoted, perverse and scheming public prosecutor, who knows about the perversity and potential criminal conspiracy of the persons concerned, tried his best to defeat the fair investigation he was required to undertake (arresting them)," he said. "The court is of the view that the convict has been arrested, and the accused has been tried, in the most talaphic manner," he said. The court also commuted the death penalty to life term for convict Mohammed Sheikh to make him eligible for parole. While commuting Sheikh's death penalty, the court said he was a minor at the time of the incident and did not know about the preparation and planting of the deadly charges.
